

CARE & MAINTENANCE GUIDELINES

Do's

- Once you have installed the flooring, please take care to dust mop and/or vacuum the floor to eliminate any loose dirt and dust.
- Furniture should be tipped with felt pads to help avoid unnecessary scratching.
- Heavy furniture and/or chairs with wheels should only use those suitable for resilient type flooring. Wide, rubber profile castors are the only wheels permitted.

Don'ts

- Vacuum cleaners with beater bars can increase the likelihood of scratching your surface wear-layer.
- Avoid using any form of steam cleaners as these might cause the floor to peak and/or peel.

MAINTENANCE:

- Clean your floor using the proper formula for diluted **Neutral pH cleaner** in cool water or other spray cleaner that will not leave a residue such as Bona Professional Series Stone, Tile, and Laminate Cleaner in a pre-mixed spray bottle. **Follow label instructions.**

Here are a few choices when searching for a cleaning agent for your new floor.
